Contractor King[®]

WHY CONTRACTOR KING?

The best solution for Contractors who require mobility and increased productivity

- *Durable, compact design offering extreme mobility and one-person loading*
 - **38 kg lighter** and up to **45% smaller footprint** than comparable sprayers in its class
 - *Balanced frame design for effortless jobsite maneuvering and easy loading/unloading*
- *Endurance™ pump with QuickChange™ design for fastest pump removal and easy “on-the-job” maintenance*
 - *Using most of the field proven components of the King (Xtreme lower)*
 - *Using the same repair kits as the King (Xtreme lower)*
- *Proven XL6500 air motor with Anti-Icing technology*
- *Heavy-duty flat-proof tires require no maintenance*

Contractor King®

KEY FEATURES – XL6500 AIR MOTOR

FIELD PROVEN DESIGN ELIMINATES ICING ISSUES AND KEEPS YOU SPRAYING!

- Delivers sharp, smooth changeovers for the absolute best finish
- Durable aluminum, steel and composite construction resists common jobsite abuse
- Heavy-duty modular air valve offers unmatched performance for worry-free operation
- Oversized muffler shroud protects air motor while providing quiet operation
- Heavy-duty air regulator with ball valve and pressure gauge offers total air control

EXTERNAL PILOT LINES

- Keeps air lines isolated to prevent icing

MANUAL SHUTTLE RESET BUTTON

- Allows manual restart in case of ice build-up

DE-ICE AIR BLEED CONTROL

- Allows air to bleed to keep system ice-free during heavy icing conditions

Contractor King®

KEY FEATURES – ENDURANCE PUMP

EXCLUSIVE QUIKCHANGE™ DESIGN

DESIGNED FOR FAST & EASY MAINTENANCE
TO KEEP YOU SPRAYING!

- Proven design and performance
- Chromex™ Rod and Stainless Steel cylinder for maximum life and performance
- Xtreme Seal™ UHMWPE & Leather packings for ultimate durability with most materials
- QuickAccess™ intake valve for easy access to lower ball check

REMOVE THE PUMP IN 3 EASY STEPS

1. Remove rod coupling, inlet hose and paint hose
2. Loosen jam nut
3. Spin pump to remove

Contractor King®

KEY FEATURES – CONTRACTOR CART

DURABLE, COMPACT DESIGN OFFERING EXTREME MOBILITY AND ONE-PERSON LOADING

- Rugged, welded steel construction features chrome plating for maximum protection and durability
- Heavy duty flat proof tires for trouble-free transport
- Integrated lift handles for easy, one-person loading
- Designed to be light in weight, yet durable enough for even the most demanding job sites

One-person loading saves time and labor

TORTURE TESTED TO WITHSTAND ABUSE!

Contractor King®

CONTRACTOR KING®
Air-Powered Sprayers

CONTRACTOR KING® AIR-POWERED SPRAYER

Introducing the newest member of the King family "The Contractor King"™. Designed around single-person mobility and high performance, this affordable line of air-powered sprayers is the perfect addition to every Contractor's fleet. Available in 310, 415 and 510 bar, there is a model for every job!

PROVEN KING QUALITY

- Anti-icing technology
- Field-proven design virtually eliminates icing to keep you spraying
- Durable aluminum, steel and composite construction for years of service
- Durable superior finish with limited oxidation, even with multiple coats
- Simple design for easy serviceability
- Overload porting for maximum air flow

EASY TO MOVE AND TRANSPORT

- Nearly 20 kg lighter than comparable models for easy, one-person handling
- Chrome-plated, welded-steel frame for years of service
- Integrated lifting points for easy positioning on any jobsite
- Full proof these resist jobsite debris for maximum convenience

DE-ICE AIR BLEED CONTROL
• Allow air to bleed leaving for system to clear during heavy icing conditions

EXTERNAL PUMP LINES
• Keep air lines isolated to prevent icing

MANUAL SHUTTLE BLEED BUTTON
• Allows manual control in case of ice buildup

OVERLOAD

ENDURANCE LOWER FOR QUICK AND EASY "ON-THE-JOB" PUMP REMOVAL & MAINTENANCE NOTHING IS FASTER!

SIMPLE MAINTENANCE

- Proven design and performance
- EasyChange™ customer pump, for quick and for easy on-the-job pump removal and maintenance
- Chrome™ Rod and Stainless Steel cylinder for maximum life and performance
- Field-friendly design uses the same wear parts as your other King sprayers

Remove The Pump in 3 Easy Steps

- 1 Remove rod coupling, ball trap and paint hose
- 2 Loosen jam nut
- 3 Spin pump to remove
